Do you know that PCAs and Caregivers can **review** your client's **care plan** before going to them on Generations? Do you know that you can **get directions** to and from the client's home or a facility with just a click on Generations? Do you know that RNs, LPNs, and LNAs working staffing shifts can **review the facility policy and special requirements and instructions** on Generations? Do you know that you can review your **time sheet** on Generations **before payroll** is processed? Did you know that you can **leave visit notes** for the Nurse Case Manager and Courtney to review? Did you know that you can review all the **available shifts**?

Read-Only Display of Schedule for Caregiver

Below is an image of what a Caregiver sees when you log into Generations.

View Available Shifts and My Calendar

Caregivers can also see a list of Available Shifts. When you sign in to view Schedules, you click on the "Available Shifts" button and shifts that need to be covered or open will be shown; the view below shows Available shifts. To return to their Schedule, you just click the "My Calendar" button.

A screenshot of a web application interface for viewing available shifts. At the top, there are four buttons: 'Add Visit Notes', 'View Visit Notes', 'Available Shifts' (highlighted with a red circle), and 'My Calendar'. Below the buttons is the address 'Drew, Nancy, 989-145-4521, 235 Gateway Drive, G'. A navigation bar shows '2012' and 'Drew, Nancy' with a dropdown arrow, and 'All Locations'. The main content is a calendar grid with columns for Wednesday, Thursday, Friday, and Saturday. Each day shows a list of shifts with caregiver names and times. For example, on Wednesday 29, there are shifts for Anwar A (06:00 A-11:00 A), Cecilia C (?), and AAHim A (?).

Wed	Thu	Fri	Sat

Mapping when Caregiver Views Schedule

Caregivers can click "Map All" on the Schedule to review the location of their visits and directions for that day in Google Maps.

View Plan of Care

Caregivers can view and review a Client Care Plan prior to your visit to the client.

Visit Notes

Caregivers can both add notes about their Client to Generations as well as read recent Visit Notes written by others regarding the.

Tasks

When a Caregiver signs in to view their Schedules in Generations, they also have the ability to indicate that Tasks were completed. They place a checkmark in the box to indicate that a Task was completed. Note that the Caregiver can only update Tasks three days into the past; they cannot mark Tasks into the future or beyond three days.

Review your Time Card prior to payroll.

Caregivers can now review your time card prior payroll. If there are any discrepancies, please notify the office as soon as possible.
